## Letters from Quilters

We thought it would be fun and inspiring to share letters from our community. Occasionally quilting serves as a doorway to a new life or functions as therapy when one is faced with obstacles. Often we don't know what each meeting/class will evolve into, but when magic happens we're happy to have been a part of it! If you have a special story that you would like to share email us at: [letters@jukeboxquilts.com](mailto:letters@jukeboxquilts.com).

### A letter from Sandra:

Hi Kelly,

This will be kind of a corny email, but I wanted to explain just how much taking that free-motion class last summer has turned out to be a significant life-changing event. You have probably figured out that I love my current job as a science educator (demanding, but very rewarding). Although it was nearing the time for me to get serious about retirement, I found the prospect of actually leaving my career a bit daunting.

Becoming part of the long-arm quilting world has opened all kinds of possibilities. And now I am practically counting the days to retirement! I'm going to quilt for others and see what other niches the quilt world might need to have filled. It is really exciting to think about (and make the Gammill pay for itself and my addiction to fabric :-)).

You, Kathy and the others at JukeBox Quilts have become friends that I look forward to seeing. The collective creativity and talent is so inspiring!! You have really created a sense of community for the long-armers.

PS. My new business is called Blue Merle Quilting. This is so much fun:-)

-Sandra

In order to join in on the class you will need to attend at least one introduction class. We're willing to do an extra intro class with a few more sign ups, then you can joint one of the existing classes on Saturday mornings classes or Thursday evenings.
