JUKI ECO PRODUCTS

JUKI ECO PRODUCTS

This is an eco-friendly product which complies JUKI ECO PRODUCTS standards for protecting the environment.

●The sewing machine complies with the "JUKI Group Green Procurement Guidelines" on the use of hazardous substances, which is stricter than other restrictions, such as those of the RoHS Directive.

For details of JUKI PRODUCTS, refer to:  
[http://www.juki.co.jp/eco\\_e/index.html](http://www.juki.co.jp/eco_e/index.html)

\*The RoHS Directive is an EU Directive limiting the use of 6 hazardous substances (lead, hexavalent chromium, mercury, cadmium, PBB and PBDE) in electrical and electronic equipment. The Juki Green Procurement Guideline is the voluntarily established criteria to eliminate not only the aforementioned six substances, but also other ones which also adversely affect the environment.

J-350QVP Sit Down

JUKI's home sewing machines built with the industrial sewing machine technology with the world's market leader. The JUKI SmartStitch will boost your creativity and lift your artistry to greater heights.

# JUKI's First: Image Sensor Based Stitch Regulator!

## JUKI SmartStitch

### Built in JSS: Stitch Regulator System

JSS makes it possible to produce accurate, precise stitching at any speed while quilting. When you select your stitch mode, the J-350 QVP image sensors precisely read movement keeping stitch lengths perfect.

### Large Quilting Space

18" long x 10" high large throat space is the perfect workspace for any size quilt. The 10 inch height and directional lighting increase your view around the stitching area allowing freedom to quilt your creative designs.

### Large Color LCD Touch Screen

The touch screen display indicates JSS mode, LED light settings, speed control, stitch length, needle up/down, bobbin estimate settings, automatic or manual thread trimming, and more.

### Built-in Bobbin Winder

Built in bobbin winder operates with an independent motor. Quickly fill full capacity M size bobbins with your favorite thread ready to complete your project.

### Ergonomically Positioned Auxiliary Hand Wheel

Convenient, easy reach hand wheel is located on the right side of the sewing head for precise needle placement.

### Four Stitch Modes

**Cruise:** Free-motion quilting with JSS control

**Precise:** Free-motion quilting with JSS control when using a quilting ruler

**Baste:** Tacking or basting with JSS control

**Manual:** Free-motion quilting without JSS control

### Ruler-Compatible Standard Presser Foot

Quilting foot compatible with 1/4" longarm quilt rulers.

### Bobbin Estimate Settings

A red indicator light appears when the amount of bobbin thread remaining is measured at 20% allowing you to finish a row or design and prevent unexpected quilting interruptions.

### Automatic Thread Trimmer

Both upper and lower threads are trimmed by the push of a button with the exclusive JUKI knife system allowing you to quickly move to your next quilting position.

### Directional Bright LED Lighting

High intensity LED lights located above the needle with the addition of high intensity LED lights directed toward your quilting area.

### Sub Table

Large quilting table with adjustable height and optional extensions.

### Switchable Foot Controller Function

Electronic foot control with quick control thread cutting. With JSS, you can select whether to use the foot controller as an accelerator pedal or an ON/OFF switch.
