As always, a lot is happening around here! Pop by to see great quilts, learn some fun techniques and to get inspired!

Check out all of the awesome [digital quilting](#) patterns we've added to the website! More are being posted each week, so keep checking back. A great one to have in your stash is Valerie Thor's Tangled Waves - use it on a quick wholecloth or any modern quilt - it's sure to wow! Other designers include Sherry Reynolds, Hari Walner and Natalia Majors.

We have some brand spankin' new fabric lines! Just in, Jen Kingwell's new line Gardenvale and a whole line of some incredible Australian fabrics. Come in to see them, or see them on the [website](#). We also have a lot of precuts, some priced at 50% off.

Check out our version of the Springtime in the Rockies Shop Hop Quilt. We have kits available, and quilted this with specially designed patterns that nestle just right and are used with two thread colors. Very cool! Kits, including the pattern, are \$75 to complete this 76x66" quilt. Buy the kit, and get 25% off the quilting - you can rent a machine, or we can do it.
