## Notes from Jukebox

May 22, 2014

### Greetings!

Well, we're pretty much moved into our new location. It's been great being neighbors with Mama Said Sew and the other artists in the building. Come visit! Here's what's happenin':

### New Vision 2.0

We've got this brand spanking new machine here in the shop. Call if you'd like to come give it a test spin! Click here for a [video](#) on this machine. For printed information, [click here](#).

### Rental Program

Want to quilt your own quilt? Call and reserve time on our machines! We have a sit-down Gammill, Vision 2.0 hand guided machines, and several Statlers! Rental time includes one of our quilting experts working with you every step of the way, so no prerequisites or skills are required! We promise, you'll have a great time, and will end up with a fabulous completed quilt where you've had all creative control.

### Charity Quilts

Do you have a small group that would like to come use the machines to quilt quilts for a charity? Call and schedule a fun day! We also have a limited number of hours available for individuals wishing to do charity quilting at reduced rental rates

### Machine Maintenance, Service and Moves

Need service, annual maintenance, or to move your machine to new digs? We do this, table cut-downs, store machines, and provide many other services at your location or our shop or warehouse. Call for rates and to book dates. For moves, try to give us plenty of advanced warning. For any of our traveling services, if you know of others needing Gammill assistance, we divide the cost of the travel between all those getting service.

## Sockhop Meetings

### Statler Owner Classes at Kelly's

10-3, lunch 12-1 (bring your own or visit one of the local restaurants). Please contact us to RSVP so we have enough seating!

The members requested that we have longer meetings fewer times per year, and during non-snow months if possible. The dates I originally put out were on holiday weekends (no wonder I had them open) so we've switched them hoping more of you could come, and moved some topics to accommodate our guest speaker. All meetings are at the Jukebox showroom, 406 N. College, upstairs.

### Sat. May 31st

Stand Alone Mode in CS - Harnessing the Power

Bring a laptop with CS loaded and learn about setting up quilts in Stand-Alone-Mode, preparing sample quilts for customers to preview, manipulating patterns, etc. We'll cover this until around 2, then I'll be discussing "Tips and Techniques for your Touch Tool" for anyone that wants to stick around.

### Sat. July 26th

Learn from incredibly talented Statler owner (and major quilt show award winner) Lori King. Lori will be doing a trunk show and talking about Shadow Trapunto. At the end of the session, Kelly will show you techniques developed with Hari Walner for doing trapunto on the Statler. Look out, more techniques to set your mind spinning...

### Sat. August 23rd

Sock Hop - Bonus meeting - Using Evernote to Organize your Purchased patterns and Tips and Techniques for Creative Studio. Need some in depth instruction on using Evernote, Dropbox, and Creative Studio? Join us for lots of pointers.

### Sat. Sept. 20th

Terrific Techniques - Using the Statler for foundation piecing, strip and half square triangle piecing, applique, embroidery, etc. I'll provide some great Christmas gift ideas to use for getting ahead for the holidays.

### Sat. Oct. 25th

Bring your laptop with CS loaded and learn how to quickly draw and arrange 50 patterns that will make those modern quilts you keep getting look fabulous! Use these patterns for trims and fills, or to quilt entire quilts.
