MULTI-SIZE QUILT PATTERN

PATTERN NOTES

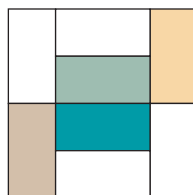

- 8" x 8" finished block after sewn in quilt.
- Use $\frac{1}{4}$ " seam allowance throughout.
- WOF: Width of Fabric selvage to selvage is assumed to be 40".
- Press seams in direction of arrows.
- Please read all the directions before beginning.

Before you start!

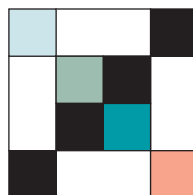

Do a seam allowance test: Use pieces cut from scraps to test your seams before beginning to ensure your block measures the right size.

Cut (2) pieces of fabric: $2\frac{1}{2}$ " x $4\frac{1}{2}$ ". With right sides together, sew along the $4\frac{1}{2}$ " side. Open and press. Your piece should measure $4\frac{1}{2}$ " x $4\frac{1}{2}$ ". If it doesn't, adjust your seam allowance until it does. Mark the place on your sewing machine (or take note of your settings), so you achieve this same seam allowance throughout the quilt.

Make a test block: I suggest you make one of each block before cutting up all your fabric. Your block should measure $8\frac{1}{2}$ " x $8\frac{1}{2}$ " before sewn into the quilt.

QUILT SIZE BREAKDOWN

Borders

The length of strips needed to construct your borders depends on the actual size of your quilt. Measure your quilt after each step to ensure that your borders will be cut at correct size. For most efficient use of fabric, join all the strips for each border together end to end using a diagonal seam and subcut pieces to the desired length. Sew side borders on first and then top and bottom borders.

Black inner border is cut 2" wide. It finishes at 1½" wide.

	Crib	Twin	Queen	King
Number of 2" WOF strips to cut	4	7	8	10
Subcut 2 strips this long for sides	48½"	72½"	88½"	96½"
Subcut 2 strips this long for top and bottom	35½"	59½"	75½"	99½"

Teal outer border: Crib is cut 3¼" wide. It finishes at 3" wide.
