# Super Simple 9-Patch Quilt

A quick and easy quilt, using a novelty print and three coordinating fabrics.  
Quilt size: 36" x 46"

## Fabrics Needed

**3/4 yard for Center :** A novelty print is the perfect choice for this large center rectangle.

Cut: 1 rectangle 24-1/2" x 36-1/2" (A)

**3/4 yard for Border Strips:** Pick a fabric that coordinates to the novelty fabric.

Cut: 4 6.5" strips x WOF strips (B)

then cut 2 strips 36-1/2" x 6-1/2" and 2 strips 24-1/2" x 6-1/2"

**Fat quarter for Corner Squares:** Pick another fabric that coordinates.

Cut: 4 squares 6 1/2" x 6 1/2" (C)

**Backing:** 1 1/2 yards

**Binding:** 1/3 yard - strips cut to the width of your choice.

**Batting:** 40" x 54" (crib)

## Construction

- Begin by adding the two side border strips to the center rectangle. Press. Sew the corner blocks to each end of the 24-1/2" x 6-1/2" strips and press, and add to the quilt. That's it. You are done!
- Layer with backing and batting and quilt as desired. Bind using your favorite method.
- Extra Effort: Pockets are helpful to have on these wheelchair quilts and I often add them after they are quilted. Just take another square 8" x 8" and turn under the edges on all sides 1/2". Top stitch along the top (open) edge and then pin anywhere along the top 1/3 of the quilt and topstitch along the three remaining sides. I usually place them just below the border. Perfect for a tissue or keys or a remote.
