Here's your weather report coming from Northern Michigan today...

While Spring is on the calendar, it appears that she's not all that ready yet. Hard freeze last night. But the good news is that "they" are calling for storms tomorrow. Nothing like a good thunderstorm to get the knitting and crochet mojo back!

We have 2 Sit 'n Knits every week, at various locations and still feature our once monthly

Suck-it-Up Saturday.

Email me for locations of these events!

This sale is good for one week only....

On Sale....

This week we are featuring all of our Top This Hat Kits.

I think we've pretty much got all of them in stock, and they can ship out immediately! Now, when I say we have them in stock, if I have 5 in stock and have orders for 8, obviously, someone will have to wait a bit, but it's usually no longer than a week!

		<p>Top This Hat Kits. So much fun to knit up, seriously, takes only a few hours. They are worsted weight and knitted on size 9 needles! The hat pattern is included. Too many varieties to list, animals, birds, unicorns (2 styles!) seasonal things (think elves and Santa), and even a soccer ball!</p>

WIPs....

This purple mass is slowly trying to become this:

Pretty isn't it?

My son is getting married in August, so I do still have some time, but wow, is it slow going.

Not a hard pattern, but it is intensive. (which is knitting speak for "it will take a good long time to pull this off").

The yarn is Jojoland, and while I don't have it up on the site yet, it

should be really popular!

Yes, there will be beads, because I do love a bit of bling!

A few things about this... Yes, there are 2 lifelines. What is a lifeline? It's a length of contrasting yarn that you put into a project at a specific point that you KNOW, without a DOUBT that that row is PERFECT!!

Stitch counts line up... you get the idea. So put in the lifeline and mark it on your pattern. If you have to rip back, then you only have to go to the last lifeline, check your pattern and continue on. So why 2? Well, I'm just lazy and didn't pull out the first one yet.

If you look closely, you'll see a larger stitch marker hanging from the point. This is to give the project some weight. This yarn seriously weighs less than air and it was flopping around quite a bit, annoying the crap out of me, so... a bit of weight saved my sanity. BTW there were 5 restarts to this project before I got it going, so don't feel bad....

Goings-on that are on-going....
