

Optional Accessories:

These optional accessories are available from your SEBO Dealer.

Wall and Floor Brush - For hard floors and dusting of textured walls or ceilings. Part # 1325 HG

Turbo Brush - For stairs & upholstery. Air-driven rotating brush for small or awkward areas. Part # 6179 AM

Extension Hose (9 ft.) - When connected to machine hose, extends the reach to approx. 15 ft. Part # 1495 AM

Radiator Brush - For cleaning narrow spaces. Attaches to the crevice nozzle. Part # 1496 HG

Straight Tube (20 in.) - For a longer reach. Can be fitted to the Active Wand for additional reach. Part # 1084 HG

Charcoal Filter - Combines S-class filtration with activated charcoal for odor control. Part # 5425 AM

Your SEBO dealer:

Pure Performance

Intelligent Design.

The SEBO design goes deeper than superficial styling. SEBO vacuum cleaners are built to work. They are easy to maintain and simple to use.

Changing the filter bag is simple and clean - when the bag is sealed, no dust can escape.

Removal and maintenance of the brush roller requires no tools!

The entire machine is user friendly and can be disassembled in minutes (no tools are necessary). Finding and clearing blockages has never been easier.

SEBO Warranty
SEBO automatic X-Series

**3 years non-wear parts,
1 year labor**

© by Stein & Co. GmbH
Made in Germany

For every task, the proper machine.

The standard On-Board Tools for the automatic X-Series include the Crevice Tool, Upholstery Nozzle and Dusting Brush.

The SEBO automatic X1 is available in white and gray.

Technical Data X1*

Vacuum motor	850 Watts
Air flow (at motor)	89 CFM
Water lift (at motor)	66 in. H ₂ O
Cord length	40 feet
Filter bag capacity	1.4 gallons
Sound level	66 dB A
Body weight	15.8 lbs.
Working width	12 in.
Motor protection	Electronic cut-out
Brush speed	2700 rpm
Brush drive	Toothed belt with electronic overload protection

12 inches

The SEBO automatic X4 is available in blue and yellow or white and gray.

Technical Data X4*

Vacuum motor	1300 Watts
Air flow (at motor)	103.8 CFM
Water lift (at motor)	92 in. H ₂ O
Cord length	40 feet
Filter bag capacity	1.4 gallons
Sound level	69 dB A
Body weight	16.7 lbs.
Working width	12 in.
Motor protection	Electronic cut-out
Brush speed	3100 rpm
Brush drive	Toothed belt with electronic overload protection

12 inches

The SEBO automatic X5 is available in blue and yellow or white and gray.

Technical Data X5*

Vacuum motor	1300 Watts
Air flow (at motor)	103.8 CFM
Water lift (at motor)	92 in. H ₂ O
Cord length	40 feet
Filter bag capacity	1.4 gallons
Sound level	69 dB A
Body weight	16.9 lbs.
Working width	15 in.
Motor protection	Electronic cut-out
Brush speed	3100 rpm
Brush drive	Toothed belt with electronic overload protection

15 inches

SEBO automatic X-Series
**Strong, Versatile,
and Intelligent.**

Pure Performance

* Technical details may be subject to change.

Powerful, practical and easy to use.

SEBO - Respected Worldwide.

Professional users prefer SEBO worldwide. With good reason! Our success is due to our innovative products and our strong focus on quality. Modern technology, state-of-the-art design, and consistent customer focus are found in all SEBO products.

Perfect Function: Brush Action, Suction and Filtration.

The brush removes the dirt and hair and moves it to the suction chamber. The strong airflow carries the debris to the three-layer filter bag.

Advantages which protect user, floor and machine:

Automatic Height Adjustment: From Hard Floor to Carpet.

The SEBO *automatic* X-Series vacuum cleaner is the most technically advanced upright vacuum cleaner in the world. Its ability to monitor the resistance of the brush roller against the floor allows it to raise or lower the power head automatically to the proper cleaning height. This guarantees optimal cleaning performance on all types of carpet and flooring and protects the floor from damage.

The Intelligent Design of the SEBO *automatic* X ensures that the cleaning of hard floors (as well as carpets) is highly effective. The sealing strip on the bottom of the machine stops the kickback of dirt and channels the airflow through the remaining three sides, increasing the cleaning performance.

The electronic controls identify the floor and the height of the carpet nap, raising or lowering the brush automatically.

Belts that should last a lifetime.

The reinforced toothed belt on the SEBO *automatic* X-Series vacuums will not slip or stretch resulting in a more efficient use of power and should last the life of the machine.

Electronic Control.

The Electronic Control is the brain of the SEBO *automatic* X vacuums. Not only does it control the automatic height adjustment, it is equipped with warning systems and automatic shut-off capabilities that are designed to alert the user to machine problems such as clogs, full bag and brush obstructions.

The 3-step filtration system:

First, the three-layer full-size filter bag (a) collects the vast majority of the debris.

Then, any remaining particles are collected by the hospital-grade micro-hygiene filter (b).

Finally, the micro-exhaust filter (c) cleans the exhaust air that the vacuum emits.

The S-class filtration system* as described above, results in 99.9% effectiveness to 0.3 microns making the SEBO *automatic* X-Series vacuums the perfect choice for customers who suffer from allergies and asthma.

*Measurement SLG/Chemnitz
SEBO uses only fiberglass-free filters
