

As Staff and management at the shop, we are concerned about the health of all of our customers (and staff).

Since many of us travel from state to state and even out of the country, I have researched the CDC policy/ warnings with regularity. CDC has established geographic risk-stratification criteria for the purpose of issuing travel health notices Feel free to check out their site:

<https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html>

For many of the areas in the country/ world their recommendation is for folks **to pay attention** to their health for 14 days and to stay home and seek medical advice **IF** they get sick with fever, cough or difficulty breathing. *Self-quarantine is recommended if you are showing symptoms, not feeling well or were in a high-risk area.*

We will continue to hold classes and drop-ins as scheduled. If you are concerned and wish to not attend class, we completely understand, just be sure to let us know, and we will add the class to the end of your series, when you decide it is safe to return.

Drop-ins will be held as usual, again please use your discretion especially if you have a compromised immune system, or are feeling ill.

We have many customers of all ages and want very much to protect all of you.

To those of you not enrolled in class, we hope that you feel comfortable coming into the shop. If not and you still need supplies, we do have much of our inventory online with shipping or door-side pick-up available.

We regularly wipe surfaces down with sanitizer/ bleach, wash our hands and have hand sanitizer available for all.

Thank you and we wish all of you good health!
