

# Compass Point Quilts & CPQ Studio

## STUDIO INFORMATION

As a certified instructor for Judy Niemeyer Quilts and an Authorized Instructor for BeColourful and Jacqueline de Jonge, my primary goal is to instruct and guide my students in the techniques required to construct and complete any BeColourful or Judy Niemeyer project they attempt. In addition to teaching for quilt guilds and shops throughout New England, I own a small quilt studio where I hold classes designed to extend teaching and instruction beyond the initial class or workshop.

CPQ Studio has enough space to comfortably teach ten to twelve students. The studio has a ground level entrance which is wonderful for moving sewing machines in and out. It is also outfitted with two large design walls; several counter-high cutting & pressing stations; cutting, measuring & pressing equipment needed; as well as a growing collection of batik fabrics.

Below you will find the three types of classes that I offer at my CPQ Studio. In addition to these weekly classes, I will be scheduling specific pattern workshops that will be held on weekends. To view a complete list
