

# October Newsletter

With the weather outside turning colder, I sometimes envision myself sitting in my favorite chair, a quilt over my lap, enjoying a good book. How do you spend your days when you are home on a cold day? I am excited to share some of our new fabric lines that have recently arrived in our store. So, as you read this newsletter, sit back in your favorite chair, wrap yourself in a warm quilt, and envision all of the wonderful projects you can make with these fabrics.

Lots of colors are presented in all of their grandeur during the Fall. These new fabrics from ©Turnowsky for Quilting Treasures may not be Fall colors, but they present a lot of bright dazzling hues of fuchsia, teal, and amethyst with crisp white accents. The dots and lyrical lines are connected together in this floral fantasy. This fabric line brings a fresh look to these enchanting prints and are perfect for home décor, apparel, or accessories.
