

September Newsletter

I don't know about you, but I cannot believe it is already September and school has started. As you think about the years you spent in school, you may consider all of the items you needed to be successful: school supplies, PE clothes, tennis shoes, computer, and let's not forget all of the homework/school assignments. Go ahead and take out your #2 pencil and a pad of paper. Start by making three columns on your paper. In the first column, list the projects you need (or want) to finish. In the second column, list the items you need to work on the projects. Lastly, in the third column, list all of the items you still need to purchase to complete the projects. With your assignment in hand, stop in at the store and show your completed assignment to one of our staff. We will give you a grade (well actually it will be 10% off one piece of fabric) and assist you with purchasing the items you still need. We look forward to seeing you "after" class.
