

March Newsletter

I don't know about at your house, but at my house, it seems to be a big event when we see the first robin. I guess, to us, that indicates that Spring is right around the corner. One morning this past week, I just stood outside and listened to the birds singing. What an awesome sound to get the opportunity to hear!

Spring also indicates to me newness ... newness of life either through animals or blossoms, but also new projects that I am excited to get to work on. Please stop by and see us for all of your quilting needs!

Some sayings have recently come to mind ... "So much fabric, so little time" and "Quilting is a scrap of happiness". To assist with your quilting fabric needs, we have recently received some beautiful pieces at our store. Endless possibilities are knocking at your door with what these fabrics can bring to your current and/or future projects.
