

Snow Globe Quilt Pattern

This is a basic quilt pattern. I did not design anything fancy, in fact I am using my snow globes as individual mini quilts to display each month.

The quilt pattern has sashing cut at 2 ½" wide by the length of your block) with a 2 ½" cornerstone squares. For the star points I would recommend using a "Tri Rec" ruler or the Marti Michell "Multiple Size Sashing Star Set"

Borders

Measure your top before you sew on your borders. The first Border finished at 1 inch. Cut your strips and 1 ½" wide by Width of Fabric. Measure your top again before you sewing on your second borders. The second border finishes at 4 inches. Cut your strips at 4 ½. Wide by WOF" Sew the strips together.
