### Fabric Requirements – Cutting – Organizing

1. First thing to decide is what size and style of quilt you would like to finish up with.
  - a. Scrappy
    - i. Sort your scraps into light, medium, and dark. Decide whether you want your “pop” to be light or dark and be sure the background is the opposite. Use your mediums for the medium. I would not use a focus fabric if making this version. Just use additional of your “pop” fabrics.
  - b. Non-Scrappy
    - i. You will need to pick either 3 or 4 different fabrics for this quilt: a focus fabric ( or you can you more of your “pop”), a fabric that “pops”, a medium and a background.
  - c. Controlled Scrappy
    - i. Very similar to the one above except use several different fabrics for each category. For example if you choose red for your “pop” color, choose several different reds and if purple is your medium, use several different purples...
