WHAT'S SEWIN' ON?

A Gathering Place for Creative Minds

A Note from Juls

Welcome to November! A month designated as a reminder of all the things we should be thankful for. I, for one, have so many things that I am thankful for and one of them is definitely all of you who are not only customers, but friends. I appreciate your smiles, your encouragement and your business.

We are now officially in the holiday season and the hustle and bustle of all the preparations will be kicking into high gear. We've got lots of fun classes with projects that will help you with some

creative ideas that will make great gifts for that special someone in your life or maybe even a special gift for yourself!

We look forward to seeing you soon!

Friendly Faces - Shana Marshall

Hi! My name is Shana Marshall and I love to work with vinyl! I design t-shirts, masks, bags, and decals for cups and walls and much more. It started off as a hobby that grew into a small business and is still growing. SM Designs is my business name and you can find me on [Facebook](#), Instagram as [sm_designs2018](#) and of course, you can always email me at smdesigns@eplus.net.

I started in 2018 just randomly making my daughter a shirt for her birthday. I was at work at looked up the Cricut machine and many others and thought I could do this. I told my husband I wanted a machine for my birthday. So he gifted me with one. It actually sat in

the box for 2 weeks. I said "no!" let me open this and get started. From that day, February 23rd, 2018, I took off with crafting and creating and haven't stopped since! I find inspiration from my family and customers. They continue to motivate me. I especially love making religious, inspirational, and motivational shirts. I have wanted to just say forget it at times, but somehow, someone comes along and just whispers in my ear "keep going, you can do this." One piece of advice I would give would be to take your time! Don't overwhelm yourself, take a break and come back to it later. If you mess up it's okay, try again and just learn from your mistakes.

Kimberbell Orange Pop Rulers

Place It, Cut It, Piece It! Phenomenal new rulers, with extended corner channels, make squaring up quilt blocks simple and accurate. Visually center embroidery and applique designs before you cut. Orange Pop Rulers are fantastic for all types of quilt blocks—sewing or machine embroidery! The open frame allows you to not only see your block, but also keeps the ruler flat and level for precise cutting. No-slip grips on the back of the rulers prevents the tools from slipping while cutting. Check out this [Kimberbell Video featuring the Orange Pop Rulers!](#)
