Quilt As You Go Wall Hanging

WHAT YOU WILL LEARN:

Wanting to make quilts, but only have a regular size sewing machine? Here is a great class to learn how to quilt as you go, enabling you to make larger quilts with a domestic machine. In this class you will be making a small wall hanging, but once you learn this technique, you will be able to apply it to make even larger quilts without the need of a long arm. For this class you will need 6 different fabrics for the piecing, 1 for the sashing and binding, and one for the backing, as well as some batting. The class will consist of Three, 2-hour sessions.

Session 1 will be sewing your blocks together and quilting. If you do not complete this in class, you will need to complete it at home.

Session 2 will be trimming/squaring up your quilted blocks, and sashing them together. Once again, if you do not finish in class, you will need to complete them at home.

Session 3 will be binding your quilt, I will show you my method.
