

No Foolin' Shop Hop Table Runner from Quilters Crossing

½ yd Sashing fabric

1/8 yd white

1/8 yd of 12" steam a seam

½ yd binding

Sashing:

Cutting parallel to the selvedge cut (8) 3.5"x18" strips. Trim these strips to 3.5" x 15.5" rectangles. Stack them all right sides UP in pairs of 2.

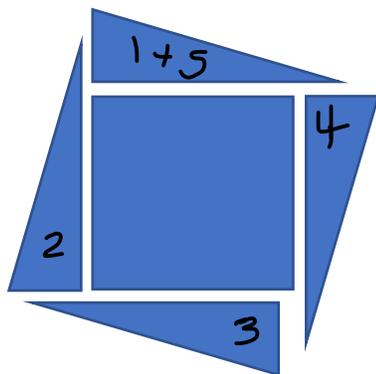

For left tilting blocks:

Take one pair of 3.5"x15.5" rectangles stacked with RIGHT SIDES UP. Make a mark ½ " down on the left short side and 3" down on the right short side . Align those marks with a ruler and cut that angle as shown:

Repeat for second block.

Sew the straight of grain sides against the blocks as shown to set the block into a wonky angle

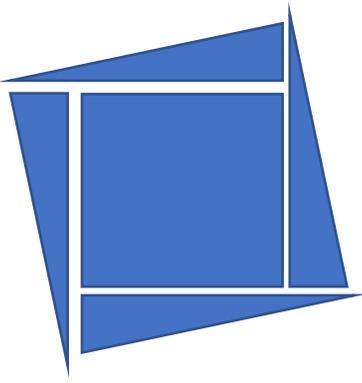

You will sew triangle 1 halfway across and stop. Then sew triangles 2, 3 and 4 on. Then go back and finish the partial seam on Triangle 1. Now you have a wonky block!

For right Tilting blocks you'll only make one small change in how you cut your rectangle sashings:

Making 2 right tilting blocks

Sew tilting blocks together side by side alternating left and right tilting.

Cut 2 more strips of sashing 3.5" x about 15.25 (if your blocks finished a bit wider cut it that width instead). Sew these onto each end of your block strip.

Round your 4 runner corners if desired, we just used a kitchen plate to guide the shape.

Stars:

Copy the star shape 5 times to your steam a seam paper. Peel away the paper on the other side. Stick it to the back side of your white fabric. Iron to fuse. Cut out your 5 star shapes. Scatter your 5 stars on your table runner and fuse down. Zig Zag stitch your stars down.

Quilt as you please! A Bias binding out of red fabric finishes it off beautifully! Enjoy and thanks for Shop Hopping!
