

# Spin Drift

78" square

## Project Requirements:

This is a very challenging quilt from the *Jen Kingwell Collection*.

### **You will need:**

- Spin Drift Pattern by Michelle McKillop of the Jen Kingwell Collective
- 4-1/8 yards of background fabric
- 1-2/3 yards of fabric for sashing & binding
- 72 – 4-3/4" fussy cut sashing squares (this gives you a great chance to check your stash and go shopping. Cut yourself a 4-3/4" clear template to check out pieces to see that they'll work. **Remember** they are on point!)
- 9 – 10" squares large print squares
- 54 – 2" strips (WOF) for the large Dresden Plates. You need 6 strips that coordinate.
- 192 – 2-1/2" squares for small Dresden Plates
- ¼ of a yard of fabric for small Dresden Plate centers
- 5 yards of backing
- Also, I found that using a Dresden Wedge Ruler Creative Grid (22.5°) to be very helpful as cutting the wedges accurately is extremely important.

REMEMBER – Enjoy finding and experimenting with the material for this quilt as that is the most fun aspect.
