2026 Kid's Summer Sewing

Week-long Morning or Afternoon Classes

Please visit the Classes page on our website, www.thegranaryquilts.com, for more information and examples of class projects.

If you are unsure which classes are right for your child, please give us a call. Each camp runs from Monday - Friday in the morning or afternoon.

Kids Handwork Adventures Camp A - Ages 8 and up

July 13-17, 9am - 12pm

This week-long class is geared toward children 8-14 that enjoy making a variety of projects by hand. Embroidery, cross-stitch, punch needle, felting, and hand sewing basics are covered for beginners while more experienced students can explore a variety of small handwork projects from making an embroidered sampler, cross-stitch key chains, punch needle in a hoop, felted shapes, and stuffed felties. All materials are included in the fee. We have projects for all genders and all ages, so gather siblings, cousins, friends and come enjoy this fun week-long class. We have projects for all skill levels in each category, so students can take multiple sessions of this class and get exposure to more challenging projects in the subsequent sessions.

Kids Beginning Machine Sewing/Camp B - Ages 8 & up

June 22-26, 9am - 12pm

July 27-31, 9am - 12pm

This class is geared toward children 8-14 that are new to machine sewing or need a refresher, but more experienced sewers will find lots of fun projects to make. Machine sewing basics are covered. Use of Granary Sewing machines and tools during class time and all materials are included in the fee. Students will begin with a basic sewing machine tutorial and then be guided through making progressively more complicated projects that build basic skills. The projects are suitable for (and we have fabric for) all genders and ages. Repeating students are welcome. Students may enroll in this camp multiple times. Repeating students can refine their sewing skills within the projects taught during the class. Projects can be repeated in different fabrics and with different design choices. In addition to excellent guidance and instruction, students will receive a project bag of their own, basic sewing tools, and materials to make all projects.

Kids Advanced Beginner Machine Sewing/Camp C - Ages 8 & up

August 3-7, 9am - 12pm

This week long class is geared toward children 8-14 that have completed Kids Beginning Machine Sewing Camp/Camp B (or have taken classes elsewhere and are very familiar with machine sewing). This class builds on the basics learned in that class. Use of Granary Sewing machines and tools during class time and all materials are included in the fee. Children will make pajama pants, a pillowcase, and simple tote. The projects are suitable for (and we have fabric for) all genders and ages. Repeating students are welcome and can make projects in new colors/designs.
