

## Backing Tips

- We will choose a thread for the back of your quilt that matches your top thread choice in order to avoid “pokies” showing on the top or bottom of the quilt. Keep this in mind when choosing your quilt backing.
- When piecing your backing keep in mind that we cannot center seams, motifs, labels, or blocks on the backing, so it’s best to piece backings off-center.
- Ensure that the seams in your pieced backing are not positioned so that they end up in your binding.
- If your backing is extremely oversized, we will position the quilt top to leave the most usable fabric. The backing may also be trimmed before quilting.

## Binding Services

We will bind your quilt for the fee of \$0.40 per linear inch (quilt perimeter x .40). This fee includes trimming the quilt and preparing the binding. You provide the binding fabric. Binding is applied by machine to the back of the quilt and brought to the front and sewn down by machine using matching thread. Adding binding services may increase turn-around time.

## Pricing:

<b>Edge to Edge Machine Quilting*</b> Single pattern.	<b>\$0.0275 per square inch</b>  (width x length x .0275)
<b>Batting</b> Hobbs 80/20 (cotton/poly) Warm and Natural (cotton) Quilter’s Dream Select (cotton) Quilter’s Dream Wool	<b>\$1.00 off per yard for longarm customers</b> (or you can provide your own <u>unpieced</u> batting)
<b>Thread</b>	Included
<b>Trimming</b>	\$20
<b>Binding</b> Machine sewn on both sides. Includes binding prep and quilt trimming.	<b>\$0.40 per linear inch</b>  (perimeter x .40)
<b>Minimum Services Fee</b>	<b>\$50</b>

**\*Note:** An additional \$60 surcharge will be added to the work order estimate for T-shirt, applique, or other quilts that may require additional attention during the quilting process. All or a portion of this fee may be added to the final cost depending on the amount of additional work required.

Thurs. - open 'til 8:00pm  
Sat. 10:00am - 5:00pm

## Quilting Services

### Edge to Edge Machine Quilting

Our longarm quilting services are completed on "Sewfie" our Gammill Optimum longarm machine with Statler Stitcher. The Statler Stitcher utilizes computer hardware and a software program called Creative Studio to guide "Sewfie" in creating state of the art stitching with design precision. We offer Edge to Edge (E2E...also known as Pantograph) services only. E2E is a single pattern stitched from edge to edge in a number of interlocking rows to cover the entire quilt top.

See the Longarm page on our Website for our selection of quilting designs.

### Checking In Your Quilt

The Granary is a very busy place and therefore we ask you to email us to request quilting services. We will send you the Longarm Services Form and give you an approximate turn-around time. Please consult the Longarm page on our website at [www.thegranaryquilts.com](http://www.thegranaryquilts.com) for our selection of edge-to-edge quilting designs and thread colors. Please fill out the Longarm Services Form completely and double-check that your quilt top and backing are prepared properly.

You may drop-off your form, quilt top, and backing during open shop hours. Note that you must sign the form and leave a credit card number to be charged. Your credit card may be charged a few days before your quilt is completed.

### Pricing

The price for quilting is determined by size of your quilt top in square inches. Measure the width and the length and multiply those two numbers to get the total square inches. If your quilt top measures 60" x 70" then your quilt is 4,200 square inches. At our rate of \$.0275 per square inch, your quilting cost would be \$115.50. This cost includes thread.

**NOTE:** Our minimum longarm fee is \$50.

For an additional fee we will trim and square your quilt after it is quilted.

Please note that a \$60 surcharge will be added to the cost estimate on the work order for T-shirt quilts and machine appliqued quilts (see reverse for details).

### Batting

On the roll, we offer Warm & Natural 100% cotton, Hobbs Heirloom 80% Cotton/20% Polyester, Quilter's Dream Select 100% cotton and Quilter's Dream 100% Wool batting. We also have a wide variety of packaged batting including bamboo and blends. We do not longarm quilts without batting. Or, you may provide your own unpieced batting.

### Preparing Your Quilt Top & Backing

Our goal is to provide excellent service with a quick turn-around time. In order to do that you will be responsible for ensuring that your quilt and backing are prepared properly. Should we determine your quilt is not quiltable we will return your quilt to you to make the necessary adjustments. Please refer to the following checklist before checking in your quilt.

- Press your quilt top and backing. Check that all seams are sewn, secure, and pressed open or to one side.
- If you have a quilt top with bias edges or "piano keys" on the border, stay-stitch the outer border.
- Clip all threads on the front and back of the quilt top (we are not responsible for threads on the back that may show through after quilting).
- Label the top and bottom of the quilt and backing if it's directional.
- Your quilt top **MUST** be square and lay flat. Measure your quilt across the top, bottom, and at the center. If the outer edge is more than an inch or two bigger, you will have wavy borders which can result in puckers in your finished quilt. If your top is not flat, we will contact you to determine if you'd like to fix it. If you choose not to fix it we will not guarantee there won't be puckers or tucks.
- Remove all pins, embellishments, etc.
- Batting & backing must be 8" larger, in both directions, than the quilt top and squared.
- If your backing is pieced, use 1/2" seam allowances and press open. Refer to the diagram on the next page for pieced backing tips.
- We only accept Shannon Cuddle brand Minky fabric. We will not quilt bargain-brand Minky fabrics.
- We do not accept sheets, fur, fleece, or blankets as backings or batting.
- We do not quilt double-sided T-shirt quilts.
