

Tools of the Trade Bag Supply List

Each class participant must have all pieces cut, quilted and labeled before the workshop. We will be focusing on assembly of this bag during class and learning a unique side zipper installation, angled handle straps and installing sew-in magnetic snaps.

Participants will need a sewing machine that can sew through multiple layers of soft and stable.

Each participant needs a ruler that is at least 18" long.

Tools of the Trade ByAnnie pattern (found in the Shop)

Sewing Notions and Supplies:

A zipper foot or very narrow all-purpose foot

A walking foot (strongly recommended)

Wonder Clips and pins

Any other sewing supplies that you generally have handy when sewing

For the Small Portfolio
