MORE RETREAT TIPS

- ❖ Kit the projects you wish to work on during the retreat, placing patterns, templates, fabrics, thread, etc. in a box or bag to ensure that all the pieces are handy when you are ready to work on them. Bring extras for when you need a break from the project at hand!
- ❖ Limited cutting stations are available for use. We recommend pre-cutting the bulk of your personal projects prior to arrival.
- ❖ If you wish to fuse anything, please bring your own iron, pressing surface, and pressing cloth.

The items listed here are suggestions to aid in your packing. Your specific projects may require additional items. Optional projects have their own supply lists included in their description.
