- 8. Public Comment:** With the 2 council positions up for election this year, Comment was made about the separation of the Clerk and Treasurer from the town board which had been posted about. There is a concern about the same people holding them and continuing to hold them. Wondered if they needed to be bid out? This decision was not set in stone and we will discuss it further. Also Leslie Onnen made the comment about the Post office bid up at the end of this year. Wondering how much money the town is going to spend to redo the new building. This was mentioned only if no one bids for the P. O. Job. The town would bid on it so we don't lose it. Pam commented that on the Feb. 13th power outage she was so happy with how everyone checked on each other and took care of them.
