If you do not have a free mySewnet account or mysewnet software installed instructions are below. If you have an account and the software installed, you are all set. You will get the codes necessary in class.

If you **already** have a free mySewnet account, sign in.
Skip down to downloading software instructions.

If you **do not** have a free mySewnet account…
Go to mySewnet.com
Click on Sign In.
Click on Register Now. Fill out the form and create a password.
Finish by clicking Get Started.

You will see that your Account is activated.
Click on Sign In.
Sign in with your email and the password you just created.

Download the software.

Once signed in, the Sign In space turns into My Dashboard.
Click on My Dashboard.

Scroll to Embroidery Software Download and Updates. Click on Windows. (if you are on a Mac, you will click on For Mac in the next window.)

Click on Download and Update software.

On the same page under Optional Downloads.
Windows: Click on Explorer Plug In.

Windows & Mac click on Download Samples Files for exercises.

Go to your Downloads folder and double click on the mySewnetEmbroidery_WIN.exe for Windows OR mySewnetEmbroidery_Mac.pkg for Mac.

Follow the install instructions to install the mySewnet embroidery software program.

Windows, double click on the Explorer Plug In.exe and follow the install instructions.

For the sample files, unzip the sample files and place them in the mySewnet / Samples folder on your computer. This is an important step because we will be using the samples in class!

You're ready for class!
