

FIFI'S FABRICOLOGY BY ANNIE WORKSHOPS

This handout is to help you be prepared for your workshop here at Fifi's.

When you have decided on your By Annie Workshop and purchased your pattern open it up and read instructions carefully.

Cut out all your bag pieces and label with the enclosed labels provided in your pattern. A good tip is to photocopy these labels so if you wish to make the bag again you will have another copy.

The first instruction is some quilting of the main parts of your bag pieces. If you feel comfortable please get this task done. Then you will concentrate on construction of the bag during the workshop.

If you do not feel comfortable with this procedure, please don't worry you can get Kelley to help you.

We look forward to seeing you at Fifi's working on your By Annie project.

If you have any questions, please don't hesitate to ask.
