Welcome to beginning quilting! This two-day beginner class is designed to teach you the basic quilting skills and techniques to confidently create your first of many quilting projects! Over the two-day sessions I will teach you how to properly cut fabric, how to use your mat, rulers and rotary cutter, how to master a quarter inch seam, and finally quilt and bind your runner. And sew much more!

There is a fair bit to cover in the two days, so please bring a lunch with you as we will be on a set schedule to ensure you don't miss out on important timelines and information. Be prepared for homework in between classes as well so you are ready for the second and final class.

The wonderful ladies at Never Done Quilting will be more than happy to help you choose your fabrics and all the quilting notions needed to get started.

I am sew looking forward to meeting you all and helping you get started on your quilting journey!
