

TUNE-UP TIME

It's only got one tire (for the bobbin winder) and it runs on electricity not gas, but like your car, your sewing machine has gears to lube, belts to adjust and parts to align. So treat your machine to an annual tune-up. Buy service in blocks of three or five years and we'll add coverage on parts and circuit boards to equal the manufacturer's first year warranty.

Sewing machine embroidery from retired Baby Lock card BLEC-C2

Mail this form with a check or call us with the information and use a credit card. We will mail your certificate.

BRAND AND MODEL

PURCHASE DATE AND SERIAL NUMBER, IF KNOWN

Agreements restore first-year coverage of mechanical and electrical parts, excluding breakage. Annual "tune-ups" are included. Send check for total or charge card information (Visa, Mastercard, Discover or American Express) with renewal form.

New agreements go into effect at end of present service coverage or on agreement date if not presently covered. Babylock, Elna and Pfaff are eligible. Ask about other brands. Unfortunately, we are not able to cover machines used commercially.
