Groundhog Day

This week February came in with a dusting of snow and some cooler temperatures here in Northern Virginia. Just when I thought we were getting ready for spring we might just see a little winter. I know Sydney is happy only because she gets to use some new colors in her temperature quilt.

This month is Heart Health month. Sydney, outside of running the store, is a certified Fitness Instructor. She focuses on coaching and helping people bring fitness into their lives. Next week she will lead a session with a local guild focused on how to stretch and stay strong so you can continue to quilt for life. As you work to keep your heart healthy this month consider making a quilted heart and leaving it for others to find on a walk.

"I Found a Quilted Heart"

Our Saturday Sampler today was a make and take featuring Lynn. The "I Found a Quilted Heart" program is focused on spreading joy one heart at a time. This is a great way to use up fabric scraps and other notions or embellishments in creative ways. Use this project to introduce young ones to quilting and provide a sense of service and community. This program is an attempt to show that there is still kindness and goodness in the world.

Hearts are made of fabric, generally the size of your palm, and can be any shape of heart you choose. Most have a layer of batting or fiberfill and you can embellish with buttons, sequins, ribbon, etc. Have fun with your creative process!

We hope to help motivate and encourage everyone to finish their UFO's in the coming year making more room for the fun new stuff.
