

Class Information and Supply List

Class Name: Learn to Quilt Beginner Quilt Class

Instructor: Kim Spinelli

Techniques Taught:

- Read a quilt pattern
- Cut out your pieces using rotary cutter, rotary ruler and mat
- Sew a ¼" seam
- Proper pressing
- How to measure and pin your blocks

Pattern / Book Required:

- For this class you will need Pat Sloan's Teach Me to Make My First Quilt book. We will be making the nine-patch quilt shown on page 74. There are books available at the store.

Fabric, Supplies & Tools Required:

- We will discuss fabric selection, tools, and notions in class. If you need help picking fabric, we will do that at the beginning of class. I will explain tools and notions as well. If you have a ruler, rotary cutter, scissors or snips, thread and pins please bring them, but they aren't necessary to purchase prior to class if you are unsure what to purchase. We have everything in the store and after we discuss everything I can give you a better idea of what to purchase.

If you have fabric for your project, please bring it but you don't need fabric prior to class. The pattern in the book creates a square, like a table topper, if you choose to make it like it's shown, then you will need the yardage listed in the book. Many people choose to make additional blocks to make a small quilt, so you would need additional yardage. Again, this is something we will go over at the beginning of the class so I can help you decide.

Pre-Class Preparation:

To help us prepare, please let us know if you will be using one of our machines for class and we'll have one ready for you. If you have your own machine that you'd prefer to use, that's ok too, so please bring it with you.

We also offer individual one on one classes to go over your machine in detail if you would like to learn how to use your machine. Unfortunately, there won't be time in the quilting class to teach the use of your personal sewing machine. If this is something you're interested in please let me know and we can schedule a time.

If you have any questions, please don't hesitate to contact me.

Looking forward to seeing you in class.
