FOR THE LOVE OF SEWING

THE BABY LOCK EXPERIENCE

There's always something exciting to learn, to experience, or to be inspired by when you own a Baby Lock product. But what inspires us? To put it simply—you.

Baby Lock and our independent retailer network are committed to sewers like you. Together, we provide the highest quality products and services not available through mass retailers, and we can meet your sewing needs better than anyone else.

Whether you're looking for product information or a recommendation on your next machine, you can count on your Baby Lock retailer. Well-trained on the Baby Lock line, they're your friendly, trusted advisor—someone who will guide you through the features and innovations that make sewing so much fun.

When we have problems with our car, many of us turn to a mechanic. Well, think of your Baby Lock retailer as the expert you rely on for another very important machine—your Baby Lock! They'll always go the extra mile for you, acting as your go-to resource for troubleshooting, training and support.

We provide you with a comprehensive library of education and training so you'll always have something to learn. So when it comes time to create, nothing will stand in your way.

WHY SHOP SMALL?

The Baby Lock USA corporate office in St. Louis, Missouri is still run by the same family that brought the home serger to the United States in 1967. This family business started as a small independent sewing machine parts retail store. That's the heart of our brand. Today, we carry on this tradition through our Independent Authorized Baby Lock retailers who deliver the personalized, memorable service our customers have come to expect.

Make it better
WITH BABY LOCK

With every Baby Lock machine and product, we keep one in mind: Everything we do is for the love of sewing - that's our destiny. We know that you do everything for the love of sewing, too. What's more, we provide you with a comprehensive library of education and training content so you'll always have something to learn. So when it comes time to create, nothing will stand in your way.
