DIVE COZUMEL!

April 11-18th 2020

aHOY Mateys! In Honor of our friend Kevin Hoy, who believed Cozumel was the number one place in the world to dive:

Join Bryan Guntle and Crystal Colville for a fabulous dive-cation to Cozumel, Mexico! We will be staying at Cozumel's first dedicated dive resort, Scuba Club Cozumel. Located on the waterfront one mile south of the downtown ferry dock, SSC is an attractive multi-level building of Spanish-Colonial architecture that blends in with the waterfront. The jagged iron shore limestone wall gives refuge to many juvenile reef fish, lobsters, crabs, octopus, and even an occasional seahorse - great for macro photography. Guests can also enjoy shallow diving and snorkeling right in front of the resort. Things are usually very quiet during the day. Non-divers have the beach and the swimming pool to themselves...or they might decide to relax with a book in a swinging hammock under the shade of a beach palapa.

Our stay includes daily breakfast buffet, lunch and dinner. Guest rooms each have individual character with a feel of Mexican heritage. All rooms have a private terrace, air-conditioning, ceiling fans, hair dryers, alarm clocks, a small refrigerator and WiFi throughout the resort. Everything you need!

The diving in Cozumel is widely considered some of the best in the Caribbean! Dramatic walls, stunning hard and soft corals, abundant fish species (including several found only on these reefs!) and tons of macro life! Scuba-Cozumel is the in-house dive operation for Scuba Club Cozumel resort. All off shore dive sites are between a 10 minute and 50 minute boat ride from the resort and considered drift dives. The newest site in Cozumel is the wreck of the Felipe Xicotencatl located very close to the resort on nearby Tormentos Reef and Scuba-Cozumel makes trips there daily.

Don't miss out on this fabulous spring getaway!

DIVER \$2229
