

We have a surprise!

Like Sew Catalog Integration

Like Sew + EE Schenck

Like Sew is excited to partner with EE Schenck to bring the first of many integrations!

At Like Sew, we streamline the retailers work-flows and create an efficient POS, inventory management, and web system to successfully run a business in the modern retail environment.

One of the most frequently requested features is catalog data. Like Sew now includes all products from EE Schenck available in the Like Sew "Master Catalog". This allows your retailers, with a click of a button, to auto populate their inventory cards with images, description, SKU, UPC, etc., saving the retailers an average of 20-30 hours a week over creating this data manually.

This also allows your retailers to finally display the EE Schenck brand in a consistent and professional way on their websites automatically, increasing their consumer reach and

increasing foot traffic. Like Sew sees an average in-store sales increase of 20%-25% when retailers add their products to their websites on our system.

The bigger surprise to you is a \$100 spiff for sending a non-Like Sew customer lead. Fill out the form on the co-branded website for a guaranteed \$100 and send the customer to our booth to learn more (applies only to shops you speak with at QM). Or, attach a business card or write your name on the co-branded flyer and send them over (only applies to new shops that show us the flyer). We'll come by your booth each day and hand you real cash! For current Like Sew customers, send them over to our booth and we'll get them turned on to the catalog data.

Thank You and feel free to contact me with any questions.

Vincent Pao-Borjigin, Director Business Development.

EE Schenck Integrates with Like Sew in Amazing Ways

Catalog
Quickly auto-fill product data on new or existing EE Schenck products in your Like Sew system, including titles, descriptions, images, etc. with a single click.

COMING SOON

Automated Purchase Orders and Receiving Orders
Orders are created automatically in your Like Sew point of sale system when you order from EE Schenck.

Auto Product Creation
New products you order from EE Schenck are also automatically added to your POS, along with product title, description, images, and other key product details. The new products will also auto-populate your website so customers can shop your new items immediately.
