# Pro-Stitcher Lite™

**Pro-Stitcher Lite** is a computerized quilting system for lightweight longarm quilting machines. It contains the fundamental features of the full Pro-Stitcher Premium system but with condensed functions and options. This streamlined robotics system allows quilters to complete more quilts while adding incredible detail and creativity to their projects. 11-inch color touchscreen, Easily switch between computer-guided and free-motion quilting, 250 pre-loaded quilting designs, Compatible with Pro-Stitcher Designer creative software.

## Key Features

- 11-inch color touchscreen computer mounted on the stitch-regulated quilting machine
- Includes 250+ preloaded designs
- On-screen Grid and Ruler to measure designs or area on the quilt
- Position designs by simply moving your finger across the screen
- Resize, Rotate and Repeat designs to fit specific areas
- Skew or Align designs to fit any area with three or more points
- Adjust designs using on-screen handles
- Define and Fill an area with a design, using 2-corner (rectangles) or multi-point (any shape)
- Variable speed and stitches-per-inch settings
- Horizontal and vertical channel lock
- Compatible with Pro-Stitcher Designer software
- Reads most .hqf, .txt, and .qli digital quilt patterns
