Featured Janome Accessory

Janome Piping Foot Narrow

This foot is used for piping with a cord diameter of about 2mm. It is useful for making narrow piping tape using the same fabric as the piece of work, or for attaching piping tape to fabric. The Role of Each Groove Smooth Sewing Curves There are two grooves on the back side with the left one shorter than the right one. The foot is therefore suitable for curve sewing as well.

Wicked Halloween Apron

This project comes to us from **Sew4Home**, here's what they have to say:

"It's coming up on Halloween season and costume shops have started popping up in all sorts of unusual places. Empty store fronts become haunted mansions for a few weeks and then vanish once again. It's appropriately spooky! They have all sizes and shapes of costumes for kids, and there seems to be endless options for buying and making kiddie costumes online. But... what about the grown-ups? If you don't want to be a glamorous vampire, a hot nurse, or Fred Flintstone, you're kinda out of luck. Sometimes, you don't want to get all decked out; you just want a little something fun to wear to go out trick-or-treating with the kids or to answer the door for the ghosts and ghouls. We think our Wicked Halloween Apron is the perfect choice. It's fun to make from pre-cuts, and with the faux front lacing, you'll be the most stylish wicked witch on the block."

SHADOW AND LIGHT: A SOLAR ECLIPSE VIEWING EVENT

October 14, 2023
9:00 AM - 12:00 PM
Vladem Contemporary
404 Montezuma Ave, Santa Fe
Free with Admission: General \$12 / \$7 with NM ID

Come celebrate the inaugural Vladem Contemporary exhibition Shadow and Light with a solar eclipse! We will make box pinhole projectors to safely watch the eclipse in our new classroom. Then participants will get to use them on the 2nd floor terrace with one of the best views in Santa Fe. We want everyone to enjoy this celestial display of shadow and light safely so they can then enjoy the exhibition, Shadow and Light.
