## Inspiration

**Felt Christmas Tree Ornaments**

Gather up your favorite scraps of fabric and trim, leftover buttons or beads, and some new sheets of craft felt. Then, get ready to fire up your imagination for some ornament fun. While we used a simple hand stitch on our samples, you can also sew these up quickly on your machine. The key is to use what you have on hand and let your creativity run wild. This is a fantastic project to introduce children to sewing, and a wonderful way to keep them busy over the holiday break. Kids old enough to use a needle and thread will have fun picking and choosing their favorite bits and pieces, then cutting whatever shapes they dream up. They'll be beautiful however they turn out.

This concept could also be used to create a little ornament that holds a gift card. Measure the card and allow an opening about a half inch larger all around to accommodate slipping it in and out.

Because these little ornaments are made from scraps, everyone will have a different mix of ingredients. We offer a free downloadable template below with star, stocking, and mitten shapes, but don't limit yourself to our patterns. Create your own by simply sketching out any simple shape: bells, trees, snowmen... whatever strikes your fancy.
