[Square Fabric Baskets in Three Sizes](#)

By: Sew4Home

When shopping recently for some pretty plants, we noticed most garden centers offered their inventory in round plastic pots... rather *unattractive* round plastic pots. Time for a S4H solution! Each of our small, medium, and large cuffed fabric baskets are designed to cover a standard plastic pot sitting on a drainage saucer. No need to re-pot right away. Simply drop the plastic pot and saucer into the basket, adjust the cuff at the best height, and set it in the sun to thrive.

La Farge Library Community Room

Saturday, Mar 1, 2025

Learn how to create fruit trees that grow multiple varieties and introduce new fruit options to a crowded yard. Grafting is the process of attaching one variety of plant to a different variety of plant, such as a Fuji apple onto a Gala apple tree. For the scion exchange part, if you have fruit trees, bring labeled "scions" (twigs) from your plants to exchange with other participants.
