Perfect for practicing piping!**

Plus there's decorative stitches - Janome's theme of the month!

"We're always thinking about new ways to use all the great decorative stitches available on our Janome studio machines. This pillow features them in a unique way that makes ordinary piping pop. You start with jumbo half inch piping, which requires a wide fabric strip as a wrap. This fabric strip becomes the base for two rows of bold decorative stitching. We used the full 9mm stitch width available on our Janome Skyline machine. When wrapped around the piping cord, these stitches create a striking embellishment that beautifully frames the entire pillow."
