Janome Featured Accessories

Janome AcuFeed Flex HP2

This foot provides superior visibility and is great for curves and precise topstitching. It holds fabrics firmly in sync with the feed dogs to achieve professional results. For use in combination with the Professional Grade Needle Plate (HP). Great for curves and precise topstitching due to the narrow foot width with superior visibility provided by the shape of the slit at the front of the foot. Provides smooth feeding of top layer of fabric in sync with bottom layer for quilting and sewing leather or vinyl. Matching the edge of the fabric against the edge of the foot will give you a perfect 1/4" seam allowance.

Use with: Only Continental M7, fully upgraded Horizon MC15000, MC15000V3, MC6700P, fully upgraded MC9400QCP, MC9450QCP, this foot ALSO works on the Janome Skyline S9-Indigo version. (This machine has a darker indigo blue accent color than version 1 which had light blue accents.)

What Our Customers Are Up To

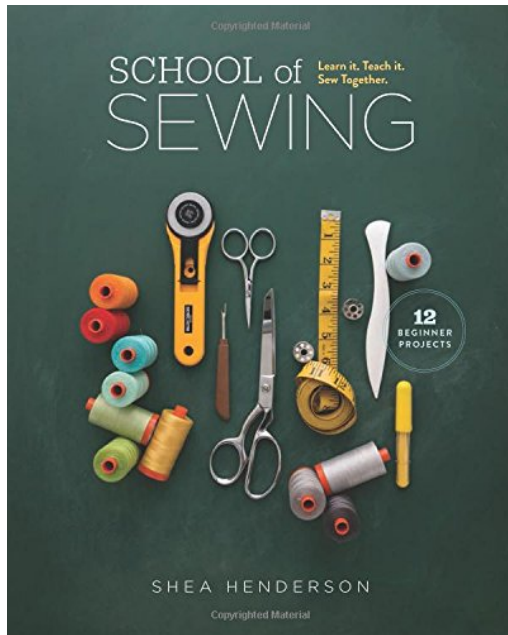

- Elizabeth H. has another great finish on the long arm. We love the way the bubble design and the fresh green thread compliment the sea creatures the blocks.

Now, we'd like to see what you're up to, and share it to help inspire others—whether it's a project, a great book you're reading, pictures from a recent vacation, or really great recipe.

Inspiration

[Dimensional Floral Mat + Bonus Card](#)

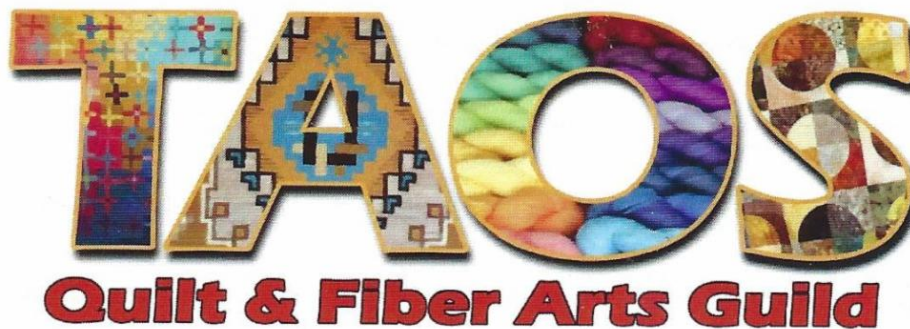

Continuing with May's floral theme. This time with **Janome.com** and **Janome Maker**, Nicole Daksiewicz of [Modern Handcraft](#). Here's what she says:

"Taking its inspiration from a traditional orange peel design, this project takes it a step further and gives us a little three dimensional look! Perfect by itself as a mat for a vase of flowers, a small plant, or a candle. Make a table runner using this same technique and multiple flowers for a really beautiful spring/summer decoration for your home!"
