### Janome Applique Foot

A long time favorite among sewists, this foot is incredibly useful and easy to use! In addition to the extra visibility of this clear foot, there are additional features that make

this foot wonderfully convenient. The applique foot is much shorter than other feet for easy use and cornering. Unique underside is flat around the needle hole for optimum thread tension, but opens wide behind the needle to let the stitching and fabric edges pass through unobstructed for even the tightest curves and angles.

## Inspiration

### Full Length Cook's Apron + Matching Hot Mitt

Father's Days just a few days away and Sew4Home has a project we think any Dad will love. Here's what they say about it:

"Is your guy an awesome chef or maybe a weekend warrior on the BBQ? Whether he's headed to the next Chili Cook-Off or just flippin' burgers for a family picnic, our cook's apron and hot mitt combo is sure to light his fire. The apron construction couldn't be simpler. You provide a simple rectangle of fabric; we provide a free downloadable template for the armhole cutout. Hem the edges, attach the pockets and ties, add a grommet, and you're good to grill.

The overall design features clean and simple lines with just a few subtle details, like bold topstitching and a jumbo pocket panel. A décor weight fabric or mid-weight canvas are good choices for this urban, industrial vibe that works indoors or out. Our awesome model is an actual chef, and he gave the apron's comfort and coverage a five-star review"
