Throughout the year, participants can take part in a variety of outdoor activities, including:

Add some SPARKLE to your appliqué!

DIME HTV Shimmer and Shine

Siser® Glitter Heat Transfer Vinyl lets you create spectacular applique with no cutting at all. Just place the glitter heat transfer vinyl over an applique placement stitch, complete the satin stitches and pull away the excess from outside the applique shape. The result is a soft applique that shimmers and shines!

Siser Glitter HTV is made for use on apparel. Launder and care for it just like you do with any apparel fabrics. And we know children love glitter, so it's great to know that Siser® Glitter HTV (heat transfer vinyl) is safe to use on children's apparel too!
