

YARN BOWLS SUPPLY LIST

YARN & THREAD

Several varieties, enough to make a pencil sized group when twisted together (usually 6-8 depending on thickness)—approximately 15 yards total

- Any fiber--cotton, wool, acrylic, silk, metallic thread, etc.
- Pearl cotton, metallic, eyelash, little "flags," etc.
- AVOID "bulky" yarns and yarns described as "thick and thin"—they will not fit easily under the beading foot
- Narrow strips of fabric (torn or cut) can also be used, bowl will be stiffer—save for a later project
- There will be an assortment of yarns available at class to enhance your selections if needed

SEWING & BOBBIN THREAD

*Normal sewing thread in a color that works with your yarn colors (black is always good)

*The bobbin thread will show but does not need to match the top thread—it's a good place to use metallic thread that doesn't sew nicely

NOTIONS & TOOLS

*Thread scissors or snips

*Stiletto or seam ripper

*Any other favorite sewing tools

Reading glasses if you need them

MACHINES & ACCESSORIES

*Sewing machine with a zig-zag stitch plus power cord & foot control in good working order

*Size 14 or 16 needles (plus extras)

*Beading foot, large—*because we cannot guarantee we will have the correct foot in stock on class day, make sure that you purchase or special order it at least two weeks in advance*

*Open toe foot

*Available for purchase from Sewing Center of Santa Fe
