

Block 58: Scant 1/4"

A - (1) 2" 

B - (4) 1-1/4" x 2-3/4" 

- 

Place B Rectangle RST on edge of A Square, having right and lower raw edges even. Stitch with a partial seam, beginning the seam in the center of Square A. Press seam toward B.
- 

Place another B Rectangle RST on lower edge of Square A. Stitch full seam from beginning to end of B Rectangle. Press seam toward B.
- Repeat Step 2 for the left side of Square A.
- Repeat Step 2 for the upper side of Square A, moving the free end of Rectangle B from Step 1 out of the way so it does not get caught in this seam.
- Now that you have a full side to work with, finish stitching the partial seam you began in Step 1, stitching out to the end of Rectangle B. Press toward B.
- Stitch or draw the increments on each B Rectangle, 1/4" apart.
