

Block 60: Raindrop Forest

Cut your various colors and background fabrics into 1-1/2" strips before you begin. This should give you a little extra to work with as you piece.

1. Print the Foundation Paper Piecing pattern on the following page. Cut the block out larger than printed.
2. Use the Foundation Paper Piecing method to complete the block. (If you are unsure of this method, you can find General Instructions and some practice blocks on the [FREE PATTERNS](#) page of Seven Sisters Quilt Shop's website. *Remember to use a smaller stitch length than normal.)
3. Trim block and remove paper.

Note:
Make sure this square measures 1" after you have printed this page.

This will ensure your block will turn out 3-1/2" unfinished.
