Quilters

The Sisterhood Quilters

This is a Foundation Paper Pieced Pattern.

If you already are comfortable with paper piecing, you are going to have a very good time!

This page may be handy for you to color and decide how you want to use your fabrics.

Print the following 2 pages on separate pieces of paper and cut them apart into sections. As you finish each individual section, trim 1/4" larger than the outer bold line.

For best results, use quite generous pieces of fabric, especially for the 'neck section'.

Join these units together, stitching along bold line.

Carefully pull paper from back of fabric when finished.

If you have never foundation paper pieced before, check out this tutorial.
