## Piecing:

1. To form a quilt block you will need to select four different prints of 2 ½" x 18 ½" rectangles and sew them together on the 18 ½" side. (Diagram A) Use the chart below to tell you how many blocks to make for the quilt size your making.

## Finishing Your Quilt:

1. First you'll need to create your backing piece.
2. Don't forget to remove the selvages and piece them together with a ½" seam allowance.
3. Layer the backing, batting, and quilt top to form a "sandwich" and baste together for standard machine quilting, or send your backing, batting, and quilt top to a Long Arm Professional to be quilted.
4. After quilting, trim away excess batting and backing fabric while squaring up your quilt.
5. Lastly all you need is to bind your quilt!
