

Quick Start to Quilting Class

Skill level: Beginner

Meeting time: Mondays at 10am – see dates below

Fee: \$100

Instructor: Jackie Dunckley

Quick start to quilting is an 8 session class series designed to take you through the quilt-making process from start to finish:

- Beginning with essential tools and color selection, you'll build your skills step by step as you learn accurate cutting, nesting seams, and strip piecing all while creating classic blocks such as the four-patch, pinwheel, and nine-patch.
- From there, you'll assemble your quilt into rows, add borders, make a quilt sandwich, and learn straight-line machine quilting before finishing your project with binding.
- With time built in to practice, ask questions, and catch up as needed, this series is perfect for new quilters who want hands-on guidance while completing a quilt of their own.

First class: We will cover tools, fabric selection, and pressing v. ironing. No machine is needed for the first class. For the remaining classes, you will need the supplies covered in week one along with a sewing machine in good working order.

Supplies: For the first class, just bring yourself! Please don't go out and buy supplies. We will be talking in the first class about differences in fabric quality, tools, brands, etc. We don't want you to buy something only to learn it's not the right tool.

Dates: Mondays 10am- 1pm
