

Fat Quarter Basket

The project for the January 28 Vintage 221 Featherweight Club will be a simple cloth basket designed to organize and store fat quarters, charm packs, or any other item. The finished basket measures roughly 6" x 7". The supplies needed for this are as follows:

- One fat quarter for the basket exterior
- One fat quarter for the basket lining
- One 14"x 20" piece of fusible fleece or fusible foam

You will also need general supplies:

- Scissors
- Pins or clips
- Rotary cutter
- Cutting mat
- Rulers
- Marking pens
- Bobbins
- Thread

Since this project works up so quickly, so may want to plan on completing several during our meeting time. It a great way to organize small pieces of fabric in your stash!
