

The project will be a sewing machine mat with pockets. The amount of fabric needed will be dependent of the size of the mat you want. Below are some suggestions for supplies/materials.

Supplies:

For this mat you will need 2 pieces of complimentary fabric for the top and bottom of the mat, enough of one of the fabrics to make binding and quilt batting or fusible foam. The size is determined by you- how large or small you want it to be. For my example, I used fabric and batting that was 18" x 28".

Other items needed:

- ¼" Steam a Seam (optional)
- Temporary spray adhesive (nice to use if using batting)
- Cutting supplies (rotary cutter, scissors)
- Pins or clips
- Thread and bobbins
