### **PREPARATION REQUIREMENTS:**

- Maximum width of back on one side is 123" The other side can be longer.
- Backing and batting must extend at least 4" beyond the quilt top on all the sides.
- TFQS is not responsible for folds in the fabric due to fullness in seams or borders while quilting.
- We want to provide you with a superior finish, therefore we require and sell Quilters Dream batting. We offer many different types and sell it by the inch; bamboo, washable wool, 80/20 cotton poly, polyester and dream green.
- Bed Sheets will not be accepted for backings
- We appreciate top and back have threads clipped, seams secure, be neatly pressed and squared. Please stay stitch 1/8" around the perimeter or serge around the quilt top. This prevents seams from popping open.
- All quilts are finished on a first come first serve basis, unless approved.

The cost of quilting is based on a number of factors:

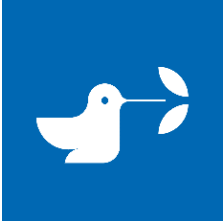

The count of stitches made by our longarm, how much thread used, needles and time (labor). The denser the stitching, the higher the stitch count. Designs can be made bigger or smaller and is up to you and your consult with the designer.

Pricing is based on the quilt's square inches and cost per inch, depending upon time it takes to complete and the amount of thread used. Typical range of costs .02 - .06 cents per inch
